

7th January 2019

Dear Neighbour,

IFA2 – Stubbington Lane and Crofton Avenue Road Crossings

I am writing to update you on the temporary changes we'll be making to Stubbington Lane and Crofton Avenue in the coming weeks.

You might remember from our latest newsletter that we will be digging the trenches at Monks Hill Beach which will eventually hold the cables for IFA2 next year. To do this, we also need to install ducts for the cables under Stubbington Road and Crofton Avenue. We will need to close parts of these roads for this work, which we're planning to carry out in early 2019.

First, we'll close a section of Crofton Avenue where it meets Stubbington Lane, commencing on 28th January 2019. During this time, we'll put in place a diversion down Sea Lane to maintain access to nearby homes and Monks Hill beach car park. Whilst the construction activities along Crofton Avenue will only take one week, in order to better manage the traffic on Stubbington Lane (see para below) the diversion will be in place until 24th February 2019.

From 4th February, we'll close one lane at a time of Stubbington Lane for a three-week period. During this time, temporary traffic lights will be in place.

We know these roads are used by local people to get to work and school. We've therefore worked closely with Hampshire County Council, which manages local roads, to understand and manage any potential impacts. We have therefore scheduled as much of the work as possible to fall outside of the school term period. We are sorry for the inconvenience this will cause you.

Thank you for your continued cooperation. All information on this work on our website: www.ifa2@interconnector.com. For further information, please contact us on 0800 0194 576 or email info@ifa2interconnector.com.

Yours sincerely,

David Luetchford
National Grid IFA2
